Cable fixing clamp for high voltage CFC SS4

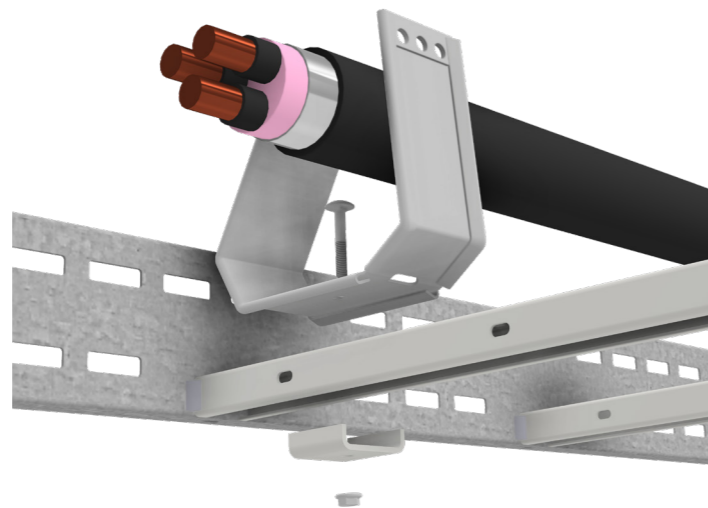

CFC-T clamps are designed for fixing cables with diameters from 25 to 99 mm. For triangular cable laying the diameter tolerance is +/- 1.5 mm

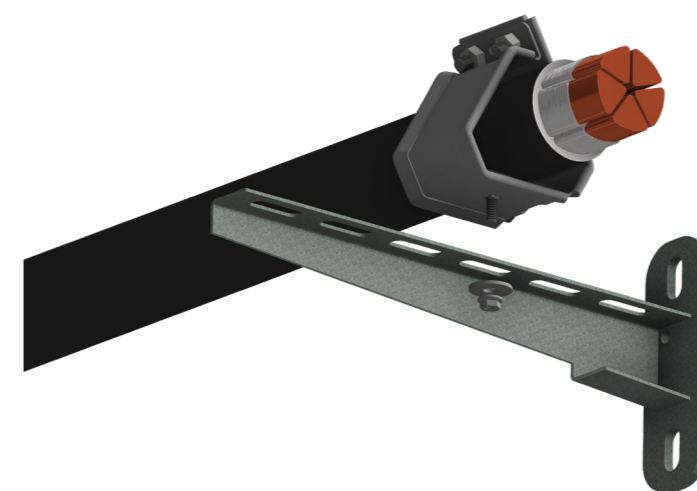

CFC-S clamps are designed for fixing cables with diameters from 37 to 99 mm. For single cables, the diameter tolerance is +/- 2.0 mm

When installing the clamp on the cable ladder, the fixing kit is used CFC-FC-1-SS4

When installing the clamp on a console (bracket), the fixing kit is used CFC-FC-2-SS4
